Blending innovation with technology

BETTER PRODUCTS

BETTER LIVING

Evkawa .... for healthy living

CERTIFIED BY AN ISO 9001:2015 CO.

Evkawa Products with its brand Evkawa, an ISO 9001:2015 certified company, is amongst one of the top Water Solution Companies in India.

It is an apex organisation, which aims at maintaining a very high standard of quality, right from the level of manufacturing to after sales services, to serve the interests of the consumers by making them its highest priority. The company's expertise lies in the manufacturing of domestic, commercial and industrial RO systems, for all kinds of applications, in standard capacities from 12 LPH to 50000 LPH.

Integrity and resourcefulness, being the two key characteristics of the company, helps it in maintaining the State of the Art technology in designing the most effective RO Systems, as per consumers' needs and demands. With sincere and dedicated efforts of the management and employees, the company has been able to continuously serve a large number of happy consumers.

BENEFITS OF EVKAWA REVERSE OSMOSIS SYSTEM

Good Health - Removes all suspended. impurities (mud and dust), extra salts, harmful chemicals (fluorides, chlorides, heavy metals etc.), micro organisms (bacteria, viruses etc.), pesticides, germs and other pollutants to ensure good quality of drinking water that is essential for healthy living.

Pure taste of water - Gives crystal clear water with pure and natural taste.

Prompt after sales service - Very efficient and well trained after sales team to handle any queries or complaints within 24 hours.

Customized RO Systems - Provides customized Reverse Osmosis Systems as per consumer's needs and demands (mainly for government, institutional and industrial clients.)

INTERNATIONAL COLLABORATIONS
LG CHEM KOREA

CERTIFIED BY AN ISO 9001:2015 CO.

Technical know-how from LG Chem, Korea

All technical know-how, support and guidance provided by LGC Petrochemical India Pvt. Ltd. for manufacturing and designing of customized RO plants across various challenging locations as per clients' requirements.

OUR PRODUCT RANGE

- DOMESTIC RO
- ALKALINE + COOPER RO
- COMMERCIAL RO
- WATER COOLER
- WATER PURIFIER
- WATER SOFTENER

LG Chem — SolutionPartner

TO WHOM IT MAY CONCERN

Date: 01/12/2018

This is to certify that M/s Eukawa Products Pvt. Ltd is using LG NanoH2O Reverse Osmosis membranes manufactured by LG Chem, Korea.

All technical know-how for the making of RO Purifier/System with LG NanoH2O RO Membranes is being provided by us.

We certify that the LG NanoH2O membranes being used in the making of "EUKAWA RO Systems" are of superior quality and are comparable with the best in the industry.

Yours Sincerely

Mohd Imran Umar
Country Manager – Indian Subcontinent

Certificate of Registration

This is to certify that

SAI MARKETING COMPANY

at

42, Neta Ji Park, Master Tara Singh Nagar, Jalandhar – 144001, Punjab, INDIA

has been assessed by Optimum Certifications Inc. and found to be in Compliance with meeting the requirements of:

ISO 9001:2015
Quality Management System

for the following scope of activities:

"Marketing, Trading and Supply of Water Purifier & Reverse Osmosis (RO) Systems"

Date of Certification: 20th January 2026 — Recertification Due: 19th January 2029
Date of Initial Registration: 20th January 2026 — Certificate Expiry: 19th January 2029
(Subject to the company maintaining its system to the required standard)

Certificate Number: QMS/2681
Validity of this certificate can be verified at www.ocicert.com

Nothing comes with guarantee in life, but Evkawa RO Systems come with an assurance, to keep you and your family healthy. The Company provides very high quality water treatment systems with a wide range of environmentally conscious products to last a lifetime. Every Evkawa product is produced with high quality equipments by well-trained engineers and is scrutinized under watchful supervision at every step of manufacturing and testing phase to ensure the highest level of effectiveness and excellence. Moreover, the Company constantly strives to create products that meet the customers' requirements.

> **"At Evkawa, leadership is all about an amazing human experience. For us, there isn't any formula or a program, it is a human activity that comes from the heart and considers the hearts of others. It is an attitude, not a routine."**

Water Purifiers

When you drink Alkaline water, you are drinking with excess oxygen.Alkaline water is heavily loaded with anti-oxidants which are essential in maintaining healthy cells because proper oxygenation helps in optimum cleansing and detoxification.Excessive fermentation is inhibited in the digestive tract, resulting in a cleaner stool within days of consuming Alkalinewater regularly. if you use Alkaline water when cooking, acidic foods become more Alkaline, it also improves the nutritional value and taste of the food.

Ultraviolet water purification is the most effective method for disinfecting bacteria from the water. Ultraviolet (UV) rays penetrate harmful pathogens in your home's water and destroy illness-causing microorganisms by attacking their genetic core (DNA). this is extremely efficient in eliminating their ability to reproduce. disinfecting your water with ultraviolet light is exceptionably simple, effective and environmentally safe. UV systems destroy 99.99% of harmful microorganisms without adding chemicals or changing the taste of water.

Alkaline Pitcher

ALKALINE WATER PITCHER

Filtration system by :

Robust Alkaline Cartridge

- **Increase PH Level to 8.5-9.5**
- **Reduces acidity and inflamation**
- **Improves blood circulation**
- **Detoxifies your body and reduces weight**
- **Strenghtens immune system**
- **Hydrates the body better than bottled and tap water**
- **Prevents & treats degenerative diseases of the body**

UV Magic

DOMESTIC WATER PURIFIER

Filtration system by:

UV System, Pre Filter, Sediment Filter, Carbon Filter and Nano Silver Technology.

- **For domestic use of 8-10 people**
- **Removes impurities like dirt, dust, sand, chlorine and chemicals**
- **UV System kills micro organisms like bacteria and virus**
- **Storage Capacity of 8L of purified water**
- **Ideal for location with low TDS level**

Assure your family of 100% Freedom from all water borne deseases

Evkawa .... for healthy living

CERTIFIED BY AN ISO 9001:2015 CO.

HF 200

COMMERCIAL WATER PURIFIER

Filtration system by:

UV System, Pre-Filter, Sediment Filter, Carbon Filter with 10" Housing and Nano Silver Technology

- For commerical use of 50-150 people
- Removes impurities like dirt, dust, sand, chlorine & chemicals
- UV Systems kills micro organisms like bacteria and virus
- Ideal for location with low TDS level

Evkawa .... for healthy living

CERTIFIED BY AN ISO 9001:2015 CO.

HF 400

COMMERCIAL WATER PURIFIER

Filtration system by:

UV System, Pre Filter, Sediment Filter, Carbon Filter with 20"Housing and Nano Silver Technology

- For commerical use of 150-300 people
- Removes impurities like dirt, dust, sand, chlorine & chemicals
- UV Systems kills micro organisms like bacteria and virus
- Ideal for location with low TDS level

Reverse Osmosis System

In our ecosystem and in all the water resources available to us, be it supplied water, ground water, borewell water, rivers and streams, etc., many dangerous contaminants are present, thus bringing impurities straight to our water lines, making such water unfit for drinking. That's where Reverse Osmosis System is of almost importance. With a Reverse Osmosis water filtration system, one can filter out all impurities and contaminants, thus producing pure drinking water. Till date, Reverse Osmosis water filtration has proven to be unrivalled process when it comes to removing impurities from water in an efficient and cost effective manner. Reverse Osmosis uses a semi permeable membrane to remove impurities. In reverse osmosis, water pressure is applied to the concentrated side forcing the process of osmosis into reverse. Under such pressure, pure water is squeezed through the membrane from the concentrated side to the diluted side. The process ensures removal of all the dissolved solids, harmful contaminants, impurities, etc. from the tap water to produce drinkable water.

RO Deluxe

DOMESTIC RO 15LPH

Filtration system by:

Triple Purification by RO+UF+Alkaline+Copper+ Nano Silver technology

- Triple purification by ro+uv+uf with nano silver technology
- With alkaline/minerals cartridge to enhance taste and ph value
- The right amount of copper, zinc, calcium & magnesium
- Kills bacteria & virus & removes dissolved impurities like rust, salt, chemicals
- TDS Adjustor- Retains natural minerals in the purified water by allowing adjustment of TDS to maintain natural taste
- Stylish eye catching modern design with LED indicators
- Low Pressure Switch shuts off the machine when the over head tank gets empty & prevents the pump from dry running.
- Fully Automatic Flushing System which enhances membrane like (available in Deluxe Plus)
- Permissible TDS of Input water <2000ppm

Industrial Reverse Osmosis Plants

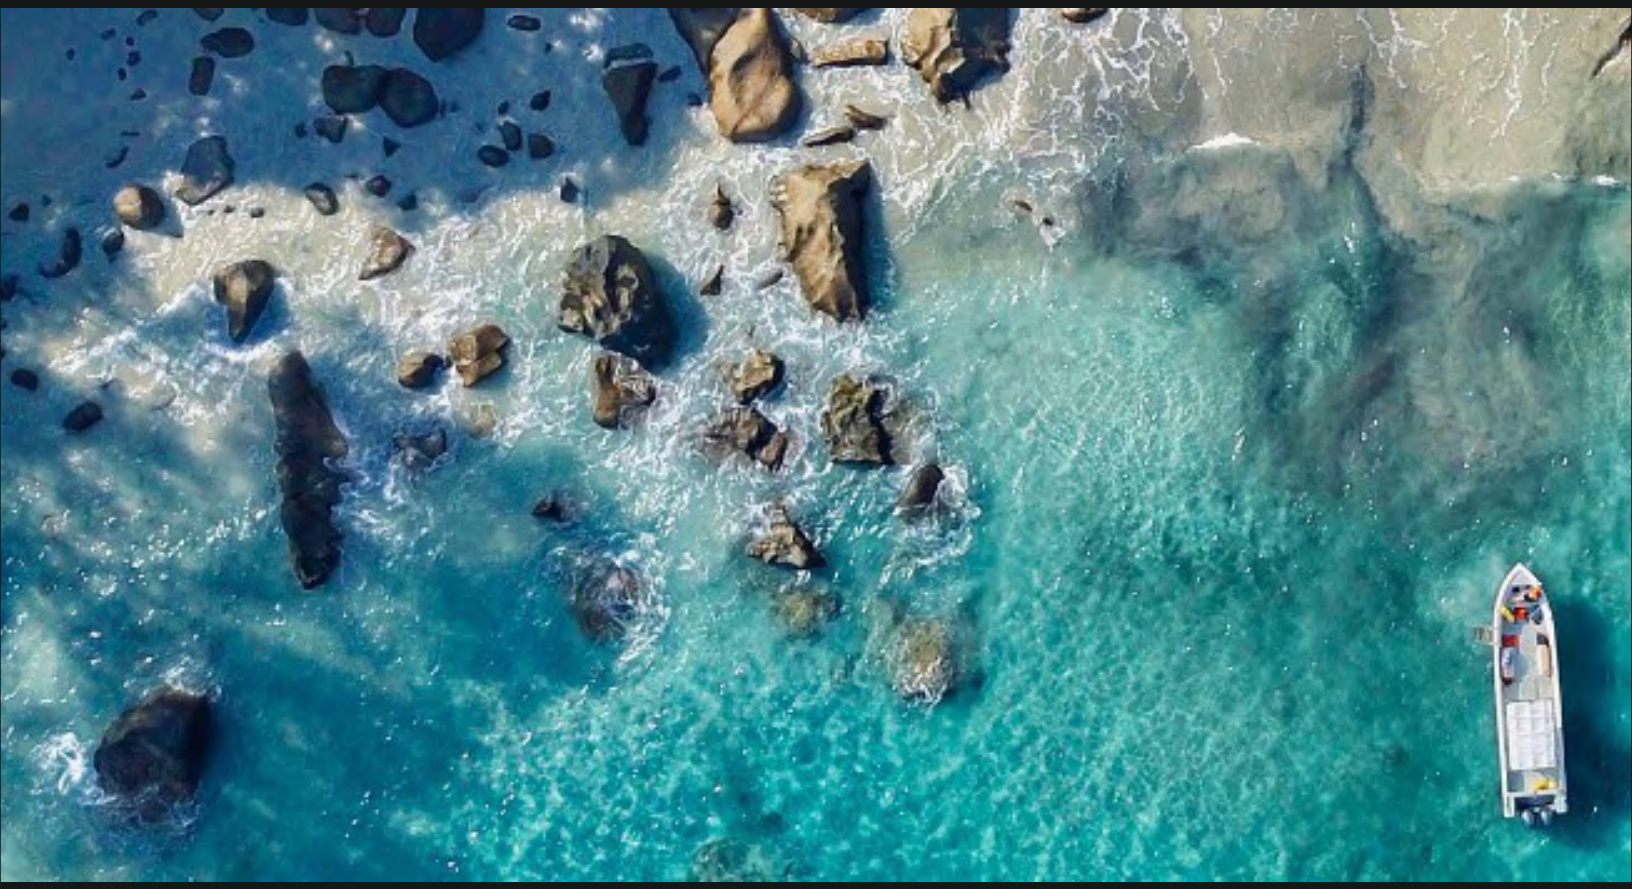

250LPH	500LPH	1000LPH
EU250CM	EU500CM	EU1000CM

Standard Features Include

- Fiberglass Pressure Vessels
- Dual Media Filters
- Digital/Electrical Control Panel
- Low & High Pressure Switches
- Anti Scalant Dosing System
- Raw Water Pump
- High Pressure Pumps, Valves, & Pressure Gauges
- Corrosion Resistant Pipes
- Cartridge Filters
- MS Epoxy Coated Skid/SS Skid
- Fiberglass Wrapped Thin Film Composed RO Membranes
- Wet Panel with Rotameters
- Conductivity Meter

WE MANUFACTURE RO SYSTEMS FROM
25LPH TO 50,000LPH

Exclusively For

Government Offices, Private Offices, Industries, Institutions, Schools, Hospitals, Hotels & Many More....

The company manufactures commercial/industrial water filtration systems for ground well, bore well, river and tap water applications in standard capacities from 25LPH to 50,000LPH with and without UV Systems.

The company designs, manufactures and installs customized RO Plants to meet client's requirements. Water Testing is done at each location to estimate the quality of raw water and therefore, RO Plants are designed as per the water reports obtained from government approved laboratories and in assistance & consultation from Woongjin Chemical Co. Ltd, Korea, to satisfy the client's requirements in the best possible way.

EVKAWA
.... for healthy living

CERTIFIED BY AN ISO 9001:2015 CO.

Hot & Cold R.O. Water Dispenser

8L/14L Storage Capacity

- The Hot & Cold Water Dispenser with R.O. is connected to the main line of the tap & the tank gets automatically filled as and when the water gets used.
- Holds 8L/14L water in the integrated tank
- Provides 100% pure R.O. water as good as bottled water
- Instant cold water supply upto 10°C
- Instant hot water supply upto 60-70°C
- Low power consumption & quick operation
- 2/3 Faucets for hot, normal & cold water
- Cooling Capacity upto 15 LPH

EVKAWA
.... for healthy living
CERTIFIED BY AN ISO 9001:2015 CO.

Water Cooler with Reverse Osmosis System

40-80 & 60-80 with 50 LPH R.O. System
60-120 & 150-150 with 100 LPH R.O. System

Standard Features

- Faster Cooling
- Low power consumption
- Anti corrosive
- Longer life
- Safe drinking water
- No plumbing required
- Float valves
- Adjustable pedestals
- Stainless steel body

CERTIFIED BY AN ISO 9001:2015 CO.

Water Softening Plants

Pure Bliss...

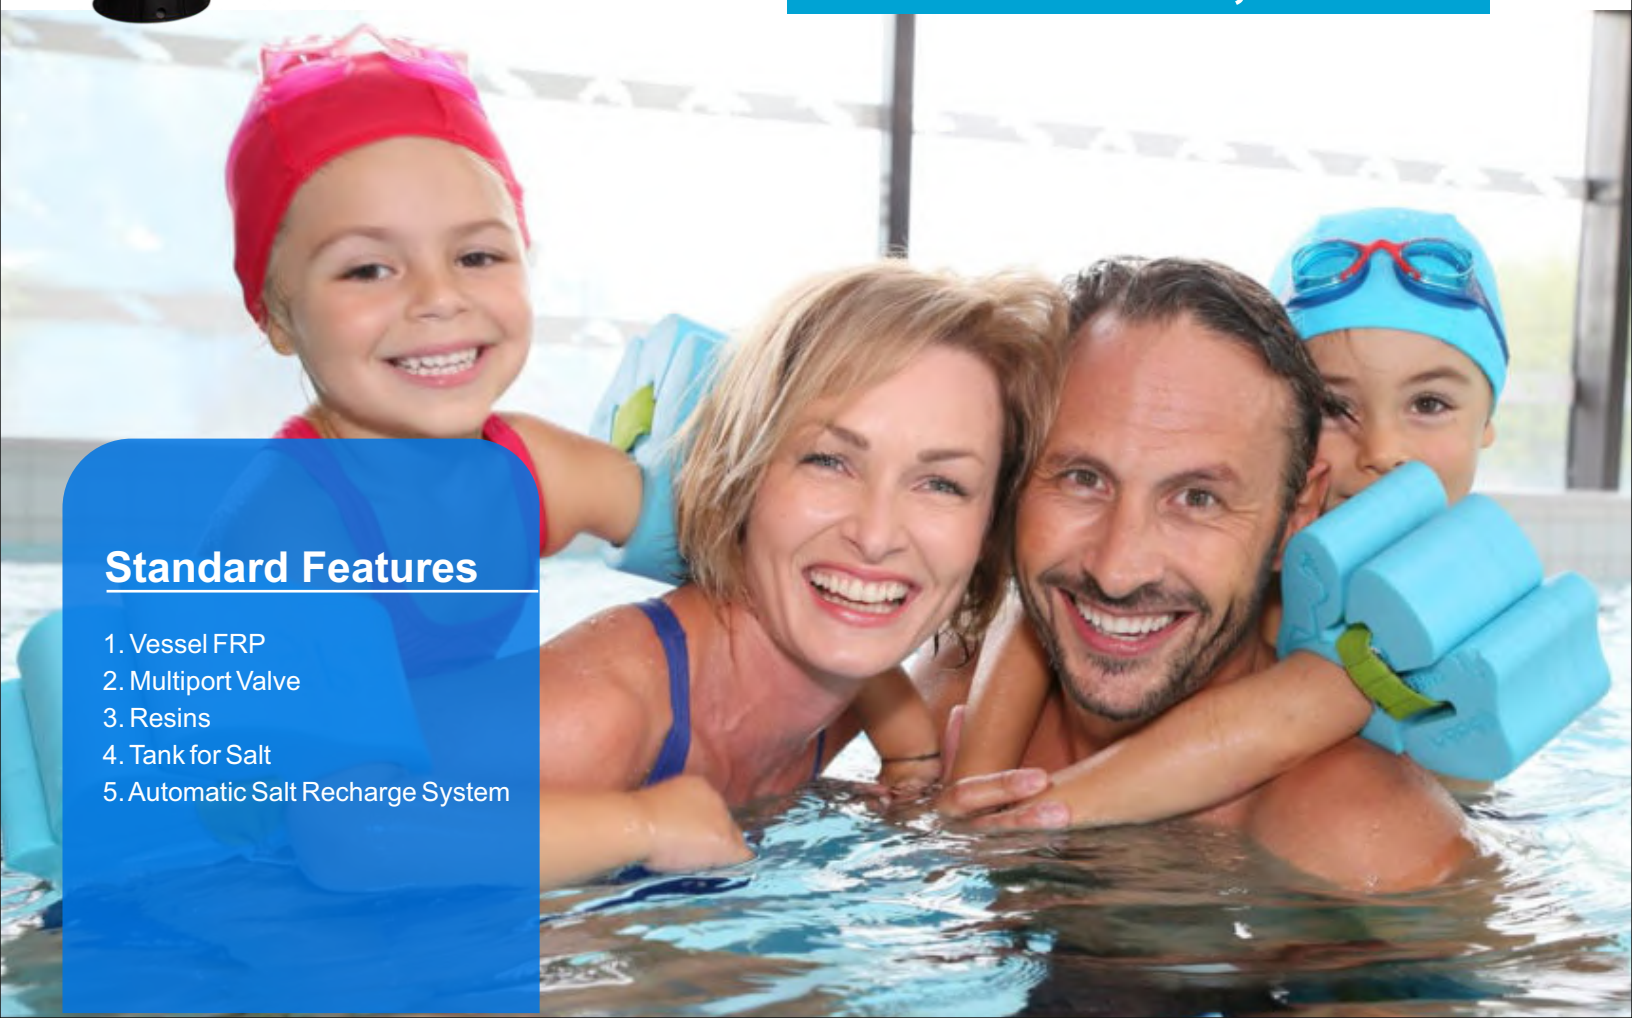

Enjoy the pleasures of soft water during bathing & cleaning

Hardness ions dissolved in water can cause variety of undesired effects including interfering with the action of soaps, the build up of lime-scale which can damage the plumbing and can cause galvanic corrosion.

Evkawa Water Softening Plants remove Calcium, Magnesium & other metals to get rid of hardness from water.

Customized models are available as per client's requirements

WE MANUFACTURE WATER SOFTENERS FROM
500LPD TO 50,000LPD

Standard Features

1. Vessel FRP
2. Multiport Valve
3. Resins
4. Tank for Salt
5. Automatic Salt Recharge System
